COOLING TOWEL

About Cooling Towel

Stay cool and dry with Cooling Towel. The towel is made of hyper-evaporative material that retains water while remaining dry to the touch. When wet, cooling towel becomes considerably cooler than the outside air and provides cooling relief. Simply soak the towel in cold water and place it around your neck or over your head. It works well at outdoor events. The Cooling Towel is effective for hours to keep you comfortable while doing your favorite activity at home or on the go.

- Stays cool for hours
- Hyper-evaporative material helps keep you dry
- Machine washable
- Wicks moisture away from your skin
- Material is soft when dry

Easy to use

1. Soak the cooling towel into water

2. squeeze it softly

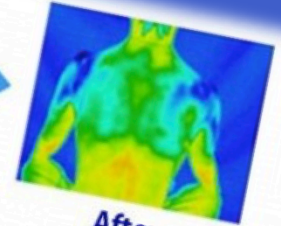

3. shake it for seconds

4. Wear it on your neck
